

Fungus Foray: Chaddesden Wood LNR 29 October 2023, for Friends of Chaddesden Wood

A great walk, with so many interested 'folk', finding new species on Derby's most important wildlife site. A first for the elegant and beautiful Pipe club, Bleeding Bonnet and Upright Coral. A very different year with fungi appearing later than usual, but so many found.

Thank you

Total 44 species found and identified.

Amanita muscaria Fly Agaric MYC
Amanita rubescens The Blusher MYC
Auricularia auricula judae Ear fungus
Bjerkandra adusta Smoky Bracket
Clavularia clavuloides Coral
Clitocybe gibba Common Funnelcap
Cortinarius stillatitus Purple Stocking Webcap MYC
Crepidotus mollis Peeling Osterling
Crepidotus variabilis Oysterling
Deadeliopsis confragosa Blushing Bracket
Hebeloma crustulineforme Poison Pie
Helvella crispa White Saddle
Hyphodontia sambuccii Elder Whitewash
Hypholoma fasciculare Sulphur Tuft
Formitopsis betulinus Birch polypore
Laccaria amethysta Amethyst Deceiver
Laccaria laccata The deceiver
Lycoperdon perlatum Common Puffball
Lycoperdon pyriforme Stump Puffball
Macrotyphula fistulosa Pipe club with Beech twigs
Mycena archangeliana Angels Bonnet
Mycena flavescens
Mycena galericulata Common Bonnet
Mycena galopus Milking Bonnet
Mycena polygramma Grooved Bonnet
Mycena rosea Rosy Bonnet
Mycena sanguinolenta Bleeding Bonnet
Mycena stylobates Bulbous bonnet
Nectria cinnabarina Coral Spot
Panaeolus papillionaceus Bellshaped Mottlegill
Panellus stipticus Bitter Osterling
Pleuteus podispileus Pink gill on wood
Ramaria stricta Upright Coral
Rhizissma acerinum Tarspot
Rhodocollybia butyracea Buttercap

Russula exalbicans Bleached Brittlegill MYC
Russula ochroleuca Yellow Russula MYC
Scchizopora paradoxa Split Porecrust
Scleroderma aereolatum Common Earthball
Scleroderma verrucosum Scaly Earthball
Stereum hirsutum Hairy Stereum
Trametes versicolor Turkey Tail
Turbaria furfuracea
Xylaria hypoxylon Candlesnuff
